6 - Are sagittal spinopelvic radiographic parameters significantly associated with quality of life of adult spinal deformity patients?
7 - Advantages and Disadvantages of Adult Spinal Deformity Surgery and Its Impact on Health-Related Quality of Life.
8 - Is it safe to perform lumbar spine surgery on patients over 85?
9 - Bisphosphonate therapy for spinal aneurysmal bone cysts.

**MORNING SESSIONS**

**Cervical spine symposium**

9:00 - 9:20 Introduction: biomechanics, normal cervical spine balance
9:20 - 9:40 Evolution with age of cervical spine
9:40 - 10:00 Neurophysiologic and neuromonitoring evaluation in cervical spine compressive pathologies

**Debat 1:** Anterior cervical interbody fusion or cervical disk replacement? O. GILLE / C. BARREY
10:00 - 10:20 Debate 1: Anterior cervical interbody fusion or cervical disk replacement? O. GILLE / C. BARREY
10:20 - 10:30 Discussion
10:30 - 11:00 Break, catering on site and stands visit
11:00 - 11:20 Debate 2: Trans discal approach or cervical corpectomy for cervical Myelopathy?
11:40 - 12:00 Debate 4: Sagittal alignment and cervical spine deformities
12:00 - 12:30 Guest of honor conference: Occipitocervical junction pathologies and surgical techniques
12:30 - 13:00 Lunch break: catering on site and stands visit

**AFTERNOON SESSIONS**

Journal club and paper discussions

(5 min of presentation and 3 min of discussion per paper)

1 - Forestier disease dysphagia, clinical series.
2 - Mono or polyaxial pedicle screws in short lumbar fusion?
3 - L5 pedicle subtraction osteotomy: indication, surgical technique and specificities.
4 - The global tilt: evaluation of a parameter considering the global spinopelvic alignment.
5 - Global Spinal Alignment in Patients with Cervical Spondylotic Myelopathy.
6 - Are sagittal spinopelvic radiographic parameters significantly associated with quality of life of adult spinal deformity patients?

Multivariate linear regression analyses for pre-operative and short-term post-operative health-related quality of life.

**THURSDAY APRIL 26th**

**ANATOMY LABORATORY, BORDEAUX UNIVERSITY**

08:30 - 17:30 8 available cadavers, one will be reserved for demonstration at the beginning of every session. On every cadaver four manipulations will be performed
12:30 Group photo / Catering lunch on site
17:30 End of the day
20:00 Gala dinner

**FRIDAY APRIL 27th**

**Pellegrin Hospital, Tri pode’s Building, Galette Administrative, room 1 and 2**

08:30 - 13:00 2 live surgeries
08:30 - 10:30 Cervical Disc Replacement V. POINTILLART
10:30 - 11:00 Break: catering on site
11:00 - 13:00 ALIF +/- Percutaneous posterior fixation O. GILLE
13:00 Lunch: catering on site and End of the Symposium
6 - Myelopathy.
5 - Spinopelvic alignment.
4 - Neurophysiologic and neuromonitoring evaluation in cervical spine compressive pathologies.
3 - Bisphosphonate therapy for spinal aneurysmal bone cysts.
2 - Forestier disease dysphagia, clinical series.
1 - Advantages and Disadvantages of Adult Spinal Deformity Surgery and Its Impact on Health-Related Quality of Life.

7 - Is it safe to perform lumbar spine surgery on patients over 85?
8 - NRS20: Combined Back and Leg Pain Score: A simple and effective assessment of Adult Spinal Deformity.
9 - Are sagittal spinopelvic radiographic parameters significantly associated with quality of life of adult spinal deformity patients? Multivariate linear regression analyses for pre-operative and short-term post-operative health-related quality of life.

Wednesday, April 25th
Cité Mondiale - Bordeaux
8:45 - 8:50 Welcome O. Gille
8:50 - 9:00 Pratical and logistic informations I. Obeid
9:00 - 12:30 MORNING SESSIONS
Cervical spine symposium
9:00 - 9:20 Introduction: biomechanics, Normal cervical spine balance O. Gille
9:20 - 9:40 Evolution with age of cervical spine J.-M. Vital
9:40 - 10:00 Neurophysiologic and neuromonitoring evaluation in cervical spine compressive pathologies N. Delgado

Degenerative cervical spine pathologies (Each debate will last about 15 minutes and 5 more minutes for discussions.)
10:00 - 10:20 Debate 1: Anterior cervical interbody fusion or cervical disk replacement? O. Gille / C. Barrey
10:20 - 10:30 Discussion
10:30 - 11:00 Break, catering on site and stands visit
11:00 - 11:20 Debate 2: Trans discal approach or cervical corpectomy for cervical Myelopathy? V. Pointillart / S. Ghailane
11:40 - 12:00 Debate 4: Sagittal alignment and cervical spine deformities I. Obeid / L. Boissiere
12:00 - 12:30 Guest of honor conference: Occipitocervical junction pathologies and surgical techniques C. Barrey
12:30 - 13:50 Lunch break: catering on site and stands visit

13:50 - 15:30 AFTERNOON SESSIONS
journal club and paper discussions

(5 min of presentation and 3 min of discussion per paper)
1 - Forester disease dysphagia, clinical series.
2 - Mono or polyaxial pedicle screws in short lumbar fusion?
3 - L5 pedicle subtraction osteotomy: indication, surgical technique and specificities.
4 - The global tilt: evaluation of a parameter considering the global spinopelvic alignment.
5 - Global Spinal Alignment in Patients with Cervical Spondylotic Myelopathy.
6 - Are sagittal spinopelvic radiographic parameters significantly associated with quality of life of adult spinal deformity patients? Multivariate linear regression analyses for pre-operative and short-term post-operative health-related quality of life.
